## PROJECTS:

**Quick Preview** (Work-in-Process) | Node.js & Express | [GitHub](#) | [Website](#) |

**Sole Developer**

*Individual Side Project - An eCommerce store plugin app that lets customers preview product's images*

October 2018

- Created a public HTTPS address with ngrok to securely expose local development to the internet
- Integrated Shopify API to access product's images.

**Choose Your Predator** | Node.js & Express | [GitHub](#) | [Website](#)

**Full-stack Developer**

*Group Project - A game in which players answer trivia questions to get to safety while being chased by a predator*

September 2018

- Leveraged MySQL to store players' login info & Firebase to store game sessions' data
- Implemented Passport.js, bcryptjs, & connect-ensure-login middlewares to secure authentication and protect routes
- Other used technologies: Travis CI, ES Lint, Handlebars, Sequelize, Heroku

**Living Water Massage Website** | JavaScript | [GitHub](#) | [Website](#)

**Full-stack Developer/Project Manager**

*Group Project - A local business website for booking reservations*

July 2018

- Integrated Yelp API, Google Maps API, Google Calendar as interactive components
- Utilized Bootstrap to validate forms & incorporated Firebase to store data
- Analyzed requirements, identified priorities, managed & monitored project plan using Kanban board on GitHub

## EXPERIENCE:

### Fulltime-Employed

**Operations Coordinator** – Liberty Healthcare Corporation

**January 2017 – August 2018**
